MEMORANDUM FOR THE RECORD (#2)

25X1A

SUBJECT: Dr. [REDACTED] Ad Hoc Committee

1. In a Memorandum for the Record, same title, same date, a description of the Ad Hoc Committee and a status report of the second session was given.

25X1A

2. Additional information on the second session includes the fact that several times [REDACTED] made remarks disparaging to the technical validity of [REDACTED] including particular emphasis on the interference of [REDACTED] signals. Additionally, in an aside to me, Dr. [REDACTED] indicated that the approval [REDACTED] currently has must have been based on political factors, since he believes it could not be based on technical grounds.

25X1A

25X1A

3. It is my view that the detailed and exhaustive technical work done by DDS&T and their contractors on [REDACTED] constitutes a more valid basis for technical judgment than the beliefs of Dr. [REDACTED]
